/ **Search**

The idea behind the ICI World of Journals database is to collect information about all functioning scientific journals. Due to the presented tools, it is possible to search for journals on the current ICI Journals Master List indexing list (ICV scoring) or the current ranking of journals created by the Ministry of Science and Higher Education (MEiN scoring) in Poland. By clicking on the title of a given periodical, you will go to its Passport, where information is supplemented and updated by editorial offices.
