This journal publisher is included in Beall's list. Is this journal predatory? How to proof if it's not?

reply

Melanie Ortiz 6 months ago

SCImago Team

Dear Tito,

Thank you for contacting us.

For further information about predatory journals or publishers, you can check the links below:

Hello

I see that this journal is listed here till 2020. However, in Scopus, it is from 2017 to present. I know you take your data from Scopus but why not updated it till now? is there anything about this journal? because I am submitting my paper to this journal.

reply

Melanie Ortiz 1 year ago

SCImago Team

Dear Derek,

Thank you very much for your comment.

All the metadata have been provided by Scopus /Elsevier in their last update sent to SCImago, including the Coverage's period data. The SJR for 2020 was released on 17 May

2021. We suggest you consult the Scopus database directly to see the current index status as SJR is a static image of Scopus, which is changing every day.

The Scopus' update list can also be consulted here:

The publisher in 2016 was indicated by Bealls list, which one trusted SJR or Bealls' Lists?

reply

Melanie Ortiz 2 years ago

SCImago Team

Dear Bejo,

thank you for your comment.

SJR is a portal with scientometric indicators of journals indexed in Scopus. All the metadata (Title, ISSN, Publisher, Category, etc.) have been provided by Scopus /Elsevier, SCImago doesn't participate in the journal's selection, we just show the data provided in the latest update by Scopus. Please contact Scopus Support regarding this matter here: https://service.elsevier.com/app/answers/detail/a_id/14883/kw/scimago/supporthub/scopus/

You said that you are committed to low publication fees, however, you asked 900 euro per paper from me.

Dear Officer/ Editor.

Is there the possibility to publish at least two articles from my Ph.D. Thesis?

I have an accepted paper and wish to add another.

Best regards.
