The paper has been reviewed and needs revising. Please, consider the reviewers' comments, edit the article and send it to ekonomika_regiona@mail.ru.

All introduced changes should be highlighted in yellow. Here are the reviewers' comments:

1. Attempts to analyze the trends of regional economies development were, are and always will be, I cannot say the article is innovative in its approach. However, the author humbly mentioned that he is not developing new methodology, he is applying developed methods for his case.:sgpi

2. I think, the author should pay more attention to the description and explanation of the Regional Trade Introversion Index, proving it's just the best tool for the needs of the research}"

3. In the conclusion the description of future research will be helpful to understand the value of the current research.

4. In formulas 1-3 the indicators are planned, but the meaning of the indicators is not disclosed. The transition to formulas 4-5 needs to be explained in more detail. To correct formula 6.

5. The article is overwhelmed with cuts, and it will be difficult for the reader to track their significance.

6. The reviewer believes that the conclusions and conclusion should be further developed. The brevity in this case does not decorate the article.

Dear Ms./Mr. Evgueniya Balyakina

Thank you that our manuscript entitled "ASEAN's Factory Economy in the Fourth Industrial Revolution Era", has been published in the Journal Economy of Region, Vol. 18 (1): 39 – 53.

However, there is a very annoying typo on page 53, regarding the publication history. I hope the error can still be corrected to maintain the credibility of the Journal by maintaining the following consistency:

Received: 10 April 2020

Reviewed: 26 June 2020

Accepted: 24 December 2021

This section was not in the paper layout that was sent for me to check, so typos were not found.

Thank you very much for your great effort.

With best regards
