Dear Authors,

We are pleased to inform you that your paper has been "CONDITIONALLY ACCEPTED" by the Program Committee of International Seminar on Application for Technology of Information and Communication (iSemantic 2022) for September 17-18, 2022, in Semarang, Indonesia.

Your paper requires content improvement and/or proofreading. We suggest you follow the reviewer's suggestion in order to refine your paper quality.

Please upload the part you revised according reviewer's suggestion to "REVISION NOTES"

The deadline for the revised manuscript submission is June 20, 2022, at 23:59 WIB. Please upload your manuscript as "REVISION MANUSCRIPT" on the EDAS system. Otherwise, your paper will be REJECTED.

We are looking forward to hearing from you. Thank you.

Regards,

Dr. Eng. Farikh Alzami, M.Kom

Chair of Technical Program Committee

International Seminar on Application for Technology of Information and Communication 2022

email: isemantic@lppm.dinus.ac.idwebsite: isemantic.dinus.ac.id/

below are the comments from reviewer:

===== Meta Review 1 =====

> *** Relevance: to ISEMANTIC 2022 topics
Good match (4)

> *** Novelty: Originality
Significant (4)

> *** Contribution: to the Advanced Computational Technology area
Major (4)

> *** Presentation: Readability, English writing
Clear (4)

> *** Accept Score: Should this paper be accepted for ISEMANTIC 2022?
Normal Accept (7)

> *** Main Rejection Reason: What is the main reason you rejected this paper or consider it to be borderline?
No Reason (6)

> *** Comment to Author: e.g. Major reasons of your overall recommendation

This article is very interesting, but in the bibliography section, it's good, if there are some old bibliographies, replaced with the latest one, or between 2019-2022

===== Meta Review 2 =====

> *** Relevance: to ISEMANTIC 2022 topics
Relevant (3)

> *** Novelty: Originality
Not bad (3)

> *** Contribution: to the Advanced Computational Technology area
Average (3)

> *** Presentation: Readability, English writing
Readable (3)

> *** Accept Score: Should this paper be accepted for ISEMANTIC 2022?
Borderline Accept (5)

> *** Main Rejection Reason: What is the main reason you rejected this paper or consider it to be borderline?
No Reason (6)

> *** Comment to Author: e.g. Major reasons of your overall recommendation

In this article:

1. iSemantic articles do not use a numbering system in the author's name section, it would be better if you are willing to fix this
2. Actually the appearance of your article is very good and comfortable to read, as well as in the presentation of the data in the form of tables and images. However, the captions for images and tables are not in accordance with iSemantic writing guidelines
3. There is a version change for writing captions for images that have not been explained in the template. "Figure 1. Research Model" --> can be written like this: "Fig 1. Research Model" which is written left aligned

===== Meta Review 3 =====

> *** Relevance: to ISEMANTIC 2022 topics
Relevant (3)

> *** Novelty: Originality
Not bad (3)

> *** Contribution: to the Advanced Computational Technology area
Average (3)

> *** Presentation: Readability, English writing
Readable (3)

> *** Accept Score: Should this paper be accepted for ISEMANTIC 2022?
Borderline Accept (5)

> *** Main Rejection Reason: What is the main reason you rejected this paper or consider it to be borderline?
No Reason (6)

> *** Comment to Author: e.g. Major reasons of your overall recommendation

1. " This hypothesis was tested on 300 respondents who had experience traveling and distributing travel vlogs via social media. Using Smart-PLS 3.0 software, a structural equation modeling approach was used to test the research hypothesis" --> is good enough.
2. Table 1. The results of Construct Validity, Convergent and Internal Consistency --> better if visualized using bar chart.
3. Please separate the discussion and conclusion and add future research.
