

IEEE EM-RITE 2022

Welcome to IEEE EM-RITE 2022

The 11th IEEE International Workshop on Empirical Methods for Recognizing Inference in TExt (IEEE EM-RITE 2022)

In conjunction with [IEEE IRI 2022](#)

August 9 - August 11, 2022

Taking Place Virtually

<https://sites.google.com/view/emrite2022>

Textual Entailment and Paraphrase are inference tasks of natural language processing (NLP) for automatically detecting entailment, paraphrase, and contradiction in texts. The aim of this workshop is to provide a forum for original high-quality research contributions on empirical methods for recognizing inference in text as well as multidisciplinary research opportunities.

Topics of interest include but are not limited to practical areas that span a variety of aspects of empirical methods for recognizing inference in text including:

- Guidelines, standards, best practices and models for the construction and annotation of Textual Entailment datasets
- Evaluation of Knowledge Resources for Textual Entailment
- Recognizing Inference in Text
- Recognizing Inference in Text and Validation
- Recognizing Textual Entailment
-  ct Validation
- System Validation

IMPORTANT DATES

- Regular paper submission: May 20, 2022
- Notification of acceptance: June 11, 2022
- Camera-ready paper due: July 3, 2022
- Author registration due: July 3, 2022
- Conference events: August 9 - August 11, 2022

SUBMISSIONS

Authors are invited to submit a paper up to 8 pages (in English) in double-column IEEE format following the submission guidelines available on the [IEEE IRI 2022](#) web page. Papers must be original and not submitted to or accepted by any other conference or journal. An electronic version (PDF format) of the full paper should be submitted by the paper submission deadline to EasyChair (<https://easychair.org/conferences/?conf=ieeeemrite2022>). All submissions will be acknowledged.
