Dear Andri Dayarana K. Silalahi,

Welcome to the 23rd IEEE International Conference on Information Reuse and Integration for Data Science (IEEE IRI 2022), which will be held virtually from Aug 9 (Tuesday) to Aug 11 (Thursday), 2022! We'd like to provide some information to better prepare you for our conference.

PAPER-ID: EMRITE3803
AUTHORS: Wen-Kuo Chen, Lin Sheng Ling, Huang Yu Jie, Pantas H. Silaban, Yuni Kartika Sitanggang, Andri Dayarana K. Silalahi
TITLE: How Travel Vlogs on YouTube Influence Consumer Travel Behavior in Indonesia: Empirical Evidence from fsQCA

1) Zoom links for only registered people

Our conference will have two links. The one for keynote and A1, B1, C1, D1, E1, F1, and G1 is https://us02web.zoom.us/j/89859751741 . The one for A2, B2, C2, D2, E2, F2, and G2 is https://us02web.zoom.us/j/87422710820 . Please make sure you download the latest version of Zoom, and join the correct Zoom link for the session that you will be presenting or are interested in attending. Please use your real and full name when joining Zoom, as our student volunteer will check the registration status to admit only the authorized people.

2) Presentation and participation

All IRI'22 presentations will be live!

If you are presenting, please join the Zoom session at least **5 minutes** prior to the official starting time to make sure your audio and video are working and to introduce yourself to the student volunteer and the session chair of the session. The presentation time listed on the program **include** Q&As, so please prepare accordingly. Note that the 15-minute allocation is for a full research paper, and the 10-minute allocation is for a poster.

At least one author who might be the presenter shall participate in the **entire** session of your paper. The no-show or the absence cases could result in your paper's removal from the conference proceedings.

All the sessions will be recorded. Note that the recording is for records only and will not be released to the public. Please contact the program co-chairs if you have any concerns about the recording.

3) Point-counterpoint

This year, we want each session to have a point-counterpoint take-away that summarizes the authors' views and the discussions. Please have one author of your paper email to nan.niu@uc.edu [email subject: Points of IRI'22 paper ID], before the end of August 5, 2022, a bullet-point list of take-aways. These can be, but are not limited to, your most significant contributions, most insightful observations, or most controversial views. Ideally, these points will relate directly to the session that your paper is part of. Please be concise and precise.

You're encouraged to integrate the points into the paper presentation (e.g., at the end). At any rate, the session chair will engage the attendees into discussing the points and the counterpoints. The point-counterpoint idea is intended to keep the session more engaged and more focused. In addition, we'd like to publish these point-counterpoint

summaries on the conference website after our conference. These will be something created by IRI'22 participants.

4) IEEE IRI 2022 Conference Program
The detailed program of IEEE EMRITE 2022 is available online
https://homepages.uc.edu/~niunn/IRI22/program.html

5) IEEE EMRITE 2022 Workshop Program
The detailed workshop program of IEEE EMRITE 2022 is available online
https://sites.google.com/view/emrite2022/workshop-program
